

## Fill in the gaps

| This is my life                          | And now (11) were here                    |
|--|---|
| Its not what it was before               | So far away                               |
| All these (1) I've shared                | All the struggle we (12) was in vain      |
| And these are my dreams                  | And all mistakes one (13) contains        |
| That I've never (2) before               | They all (14) to go away                  |
| Somebody (3) me                          | And now that were here                    |
| Cause I, I (4) be sleeping               | So far away                               |
| And now that we're here,                 | And I (16) like I can face the day        |
| So far away                              | I can forgive, and (17) not (18)          |
| All the struggle we thought was in vain  | to be the person that I am today          |
| And all the mistakes,                    | I'm so afraid of waking                   |
| One life contained                       | Please don't shake me                     |
| They all finally start to go away        | Afraid of waking                          |
| And now (5) we're here its so far away   | Please (19) me                            |
| And I (6) (7) I can face the day         | And now that (21) here                    |
| I can forgive, and I'm not (8) to be the | So far away                               |
| person that I am today                   | All the struggle we thought was in vain   |
| These are my words                       | And all the (22) one life contains        |
| That I've never said before              | They all finally start to go away         |
| I think I'm (9) ok                       | And now that (23) here                    |
| And this is the smile                    | So far away                               |
| That I've (10) shown before              | And I feel (24) I can face the day        |
| Somebody shake me                        | I can forgive, and I'm not (25) to be the |
| Cause I, I must be sleeping              | person that I am (26)                     |
