The Big Bang Theory by Barenaked Ladies

Our (1) $\qquad$ universe was in a hot dense state,
Then
(2) $\qquad$ years ago expansion started. Wait...
(4) $\qquad$
The (5) $\qquad$ began to cool,
The autotrophs (6) $\qquad$ to drool,
Neanderthals developed tools,
We built a (7) $\qquad$ (we (8) $\qquad$ the pyramids),
Math, science, history, (9) $\qquad$ the mysteries,
That all started with the big bang!
"Since the (10) $\qquad$ of man" is (11) $\qquad$ not
(12) $\qquad$ long,
As every galaxy was formed in less time (13) $\qquad$ it takes to sing this song.
A fraction of a second and the elements (14) $\qquad$ made.
The bipeds stood up straight,
The (15) $\qquad$ all met their fate,
They (16) $\qquad$ to leap but (17) $\qquad$ were late
And they all (18) $\qquad$ (they froze (19) $\qquad$
(20) $\qquad$ off)
The (21) $\qquad$ and pangea

See ya wouldn't (22) $\qquad$ be ya
Set in (23) $\qquad$ by the same big bang!
It all started with the big BANG!
It's (24) $\qquad$ ever outward but one day
It will pause then start to go the other way,
Collapsing (25) $\qquad$ inward, we won't be here, it wont be hurt
Our best and brightest figure that it'll make an even bigger bang!
Australopithecus would really have been sick of us
Debating why were (26) $\qquad$ they're catching deer (we're catching viruses)
Religion or astronomy, Encarta, Deuteronomy
It all started with the big bang!
Music and mythology, Einstein and astrology It all started (27) $\qquad$ the big bang!
It all started with the big BANG!
