

Fill in the gaps

Many times I've tried to tell you	For worse or for better
Many times I've cried alone	We belong, we belong
Always I'm surprised how (1) you	We (14) together
Cut my (2) to the bone	Close your eyes and try to (15) now
Don't wanna (3) you really	Close your eyes and try to dream
've invested too much time	Clear your mind and do (16) best
To give you up that easy	To try and wash the palette clean
To the doubts that (4) your mind	We can't (17) to know it
We belong to the light	How much we (18) care
We belong to the thunder	I hear your voice inside me
We belong to the (5) of the words	I see your (19) everywhere
We've both fallen under	Still you say
Whatever we (6) or embrace	We belong to the light
For (7) or for better	We belong to the thunder
We belong, we belong	We belong to the (20) of the words
Ne belong together	We've (21) fallen under
Maybe it's a sign of weakness	Whatever we (22) or embrace
When I don't know (8) to say	For (23) or for better
Maybe I just wouldn't know	We belong, we belong
What to do (9) my (10)	We belong together
anyway	We (24) to the light
Have we become a habit	We belong to the thunder
Do we distort the facts	We belong to the sound of the words
Now there's no (11) forward	We've both fallen under
Now there's no turning back	Whatever we deny or embrace
When you say	For (25) or for better
We belong to the light	We belong, we belong
We (12) to the thunder	We belong together
We belong to the sound of the words	
We've both (13) under
